CONTENTS

Special issue: RISK 97

Preamble ix

Opening address by Minister de Boer (VROM) 1

Integrated risk assessment and management: overview and state of the art
K. Fedra (Gumpoldskirchen, Austria) 5

A risk-based approach to life-cycle impact assessment
J.A. Assies (Groningen, Netherlands) 23

The use of mapping techniques in an ecological risk assessment of sites contaminated with chemical warfare agents
T.A. Miller, A. Yaghoobian, B.J. Stuckert (Burnaby, BC, Canada), J.S. Goudey (Calgary, AB, Canada) and J.M. McAndless (Medicine Hat, AB, Canada) 31

The importance of space in understanding the risk of multiple stressors on the biological integrity of receiving waters
S.D. Dyer, C.E. White-Hull, T.D. Johnson, G.J. Carr and X. Wang (Cincinnati, OH, USA) 37

Dynamic assessment of the ecological risk of the discharge of produced water from oil and gas producing platforms
C.C. Karman (Den Helder, Netherlands) and H.G. Reerink (Assen, Netherlands) 43

Development of maps of radon-prone areas using radon measurements in houses
J. Miles (Oxon, UK) 53

Development of a geography-referenced regional exposure assessment tool for European rivers—GREAT-ER
T. Feijtel (Strombeek-Bever, Belgium), G. Boeije (Gent, Belgium), M. Matthies (Osnabruck, Germany), A. Young (Oxfordshire, UK), G. Morris (Leeds, UK), C. Gandolfi (Milano, Italy), B. Hansen (Varese, Italy), K. Fox (Wirral, UK), E. Matthijs (Strombeek-Bever, Belgium), V. Koch (Frankfurt, Germany), R. Schroder (Dusseldorf, Germany), G. Cassani (Padermo Dugnano, Italy), D. Schowanek (Strombeek-Bever, Belgium), J. Rosenblom (Stockholm, Sweden) and M. Holt (Brussels, Belgium) 59

An approach for handling geographical information in life cycle assessment using a relational database
M. Bengtsson, R. Carlson, S. Molander and B. Steen (Göteborg, Sweden) 67

Ozone depletion and skin cancer incidence: a source risk approach
H. Slaper, G.J.M. Velders and J. Matthijsen (Bilthoven, Netherlands) 77

GIS-based modelling to identify regions of Ukraine, Belarus and Russia affected by residues of the Chernobyl nuclear power plant accident
M. Van der Perk, P.A. Burrough (Utrecht, Netherlands) and G. Voigt (Neuherberg, Germany) . . . 85

Mortality risks of air pollution: the role of exposure–response functions
A. Rabl (Paris, France) 91

Calculation and mapping of critical loads for heavy metals and persistent organic pollutants for Dutch forest soils
W. De Vries (Wageningen, Netherlands), D.J. Bakker (Den Helder, Netherlands), J.E. Groenenberg, G.J. Reinds (Wageningen, Netherlands), J. Bril (Haren, Netherlands) and J.A. Van Jaarsveld (Bilthoven, Netherlands) 99

Modelling exposure of the Dutch population to air pollution
J.I. Freijer, H.J.T. Bloemen, S. De Loos, M. Marra, P.J.A. Rombout, G.M. Steentjes and M.P. Van Veen (Bilthoven, Netherlands) 107

Using geographic and cartographic principles for environmental assessment and risk mapping
C.J. Bartels and A.U.C.J. Van Beurden (Bilthoven, Netherlands) 115

Influence calculations for risk assessment in spatiotemporal terms. A new method for mapping risks for a dynamic human population
J. Szegö (Karlskrona, Sweden). 125

Road transportation of dangerous goods: quantitative risk assessment and route comparison
P. Cassini (Verneuil en Halatte, France). 133

Assessment of wind erosion risk on the agricultural area of the southern part of Hungary
G. Mezösi and J. Szatmári (Szeged, Hungary) 139
Comparison of the acidifying impact from emissions with different regional origin in life-cycle assessment
J. Potting (Lyngby, Denmark), W. Schöpp (Laxenburg, Austria), K. Blok (Utrecht, Netherlands) and M. Hauschild (Lyngby, Denmark) 155
Urban watershed ecological risk assessment using GIS: a case study of the Brunette River watershed in British Columbia, Canada
P.A. Zandbergen (Vancouver, BC, Canada) 163
The Panteg monitoring project: comparing PCB and dioxin concentrations in the vicinity of industrial facilities
A.A. Lovett, C.D. Foxall, D.J. Ball and C.S. Creaser (Norwich, UK) 175
Accumulation of environmental risks to human health: geographical differences in the Netherlands
M.J.M. Pruppers, M.P.M. Janssen, B.J.M. Ale, R.M.J. Pennders, K.D. Van den Hout and H.M.E. Miedema (Bilthoven, Netherlands) 187
Risk hazard mapping of groundwater contamination using long-term monitoring data of shallow drinking water wells
S. Fuest, J. Berlekamp, M. Klein and M. Matthies (Osnabrück, Germany) 197
Application of species sensitivity distributions as ecological risk assessment tool for water management
R.A.E. Knoben (Deventer, Netherlands), M.A. Beek (Lelystad, Netherlands) and A.M. Durand (Deventer, Netherlands) 203
A probabilistic risk assessment for accidental releases from nuclear power plants in Europe
H. Slaper and R. Blaauboer (Bilthoven, Netherlands) 209
Incorporating the long term risk for deep emission reduction in near term CO_2 mitigation strategies
J.R. Ybema, A.J.M. Bos and A.J. Seebregts (Petten, Netherlands) 217
Integrated assessment models—tools for developing emission abatement strategies for the *Black Triangle* region
I. Lowles (London, Cumbria, UK), H. ApSimon (London, UK), K. Juda-Rezler, K. Abert (Warsaw, Poland), J. Brechler, J. Holpuch (Prague, Czech Republic) and A. Grossinho (London, UK) 229
Assessment of environmental and health benefits from the implementation of the UN-ECE protocols on long range transboundary air pollution
W. Krewitt, R. Friedrich, T. Heck and P. Mayerhofer (Stuttgart, Germany) 239
The grey areas in soil pollution risk mapping. The distinction between cases of soil pollution and increased background levels
N. Van der Gaast, H. Leenaers and J. Zegwaard (Utrecht, Netherlands) 249
Risks due to beyond design base accidents of nuclear power plants in Europe—the methodology of riskmap
I. Andreev, M. Hittenberger, P. Hofer, H. Kromp-Kolb, W. Kromp, P. Seibert and G. Wotawa (Vienna, Austria) 257
Coastal risk perception: a case study in Aveiro District, Portugal
T.M.M. Carvalho and C.O.A. Coelho (Aveiro, Portugal) 263
Risk maps and communication
J.E.T. Moen and B.J.M. Ale (Bilthoven, Netherlands) 271
Strategic risk assessment—prioritising environmental protection
G. Llewellyn (London, UK) 279
The application of WHO's Health and Environment Geographic Information System (HEGIS) in mapping environmental health risks for the European region
A.A. Kuchuk, M. Krzyzanowski and K. Huysmans (Bilthoven, Netherlands) 287
An outline of the approach being used in developing the OECD Dictionary/Thesaurus of 'risk assessment' terminology
I. Rosenthal, B. Ale and L.D. Helsing (Philadelphia, PA, USA) 291
Risk maps: theoretical concepts and techniques
M. Besio, A. Ramella, A. Bobbe, A. Colombo, C. Olivieri and M. Persano (Genova, Italy) 299

Environment–accident index: validation of a model
A. Scott (Sweden) 305
Risk perception study in the framework of PHARE/CESAR study—central European study on air pollution and respiratory health. Risk perception, the environment, and communication strategies in the CESAR project: results from the Czech Republic
H. Šlachtová, I. Tomášek (Ostrava, Czech Republic), K. Jones (London, UK), B. Vašina and J. Volf (Ostrava, Czech Republic) 313
Use of geographical maps to manage risk from groundwater contamination
R.J. Lantzy, P.T. Cichy (Bristol, PA, USA) and A.H. Leitzinger (Philadelphia, PA, USA) 319
Risk and decision analysis of groundwater protection alternatives on the European scale with emphasis on nitrate and aluminium contamination from diffuse sources
L. Rosén, D. Wladis (Gothenburg, Sweden) and D. Ramaekers (Limelette, Belgium). 329
Mapping the potentially affected fraction (PAF) of species as a basis for comparison of ecotoxicological risks between substances and regions
O. Klepper, J. Bakker, T.P. Traas and D. Van de Meent (Bilthoven, Netherlands) 337
Land use planning policies stemming from the implementation of the SEVESO-II Directive in the EU
I.A. Papazoglou, Z.S. Nivolianitou and G.S. Bonanos (Aghia Paraskevi, Greece). 345
Geographic information systems: a consistent approach to land use planning decisions around hazardous installations
A.M. Brazier and R.L. Greenwood (Liverpool, UK) 355
Determination of risks on inland waterways
W. Slob (Den Helder, Netherlands) 363
Environmental risk: towards an integrated assessment of industrial activities
G.J. Stam (Lelystad, Netherlands), P.H. Bottelberghs and J.G. Post (Netherlands) 371
Planning application tool—a risk assessment tool for non-specialists
R.J. Whitehouse (London, UK) 375
PRANA: geoinformation decision support system for protection and rehabilitation of agrosphere after nuclear accident
B.I. Yatsalo, O. Mirzeabassov, I. Okhrimenko, I. Pichugina and B. Lisyansky (Kaluga, Russian Federation) 381
Mapping human exposure to traffic air pollution using GIS
S.S. Jensen (Roskilde, Denmark) 385
Impact assessment on exploration drilling in the Wadden Sea, the Netherlands
J.M. Marquenie and J.J. Verburgh (Assen, Netherlands) 393
